

### **REMARKS/ARGUMENTS**

#### *Status of the claims*

With entry of the instant amendment claims 1 and 9 have been amended and claims 2-8 and 11-31 are cancelled. Claims 1, 9, 10, and 32 are therefore pending in the application. Claim 32 is currently withdrawn from examination.

Cancellation of subject matter is without prejudice to subsequent revival for prosecution in a continuation or divisional application.

The amendments to the claims add no new matter and are supported throughout the application. For example, support for the amendments to claims 1 and 9 can be found, *e.g.*, in cancelled claims 7 and 8, respectively.

#### *Advisory Action*

The Advisory Action mailed November 28, 2007 indicated that the amendment submitted in Applicants' response filed October 30, 2007 was not entered because it allegedly raised new issues. Specifically, the Examiner alleges that claims 25, 28, and 30 as submitted in the response would be duplicative of claims 1, 9, and 10. Although Applicants disagree, as the scope of the two sets of claims are not identical, in the interests of expediting prosecution, claims 25, 28, and 30 have been cancelled in the current amendment.

#### *Objections to the specification*

Applicants were requested to amend the description of Figure 5 and 6 to specify which sequence is associated with which sequence identifier. The amendments to the specification provide the requested information.

#### *Rejection under 35 U.S.C. § 112, first paragraph*

Claims 1-6, 8, 9, 10, 25, and 27-30 were rejected as allegedly not enabled. Although Applicants disagree for reasons of record, in the interests of facilitating prosecution, claim 1 has been amended to recite elements set forth in claim 7, which was not rejected. The

elements set forth in claims 9 and 10 were also not subject to a previous rejection. Applicants therefore respectfully request withdrawal of the rejection.

*Rejoinder*

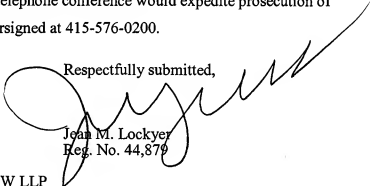

Applicants believe that claim 1 is now allowable. Rejoinder of claim 32 in accordance with MPEP § 821.04(b) is therefore respectfully requested.

CONCLUSION

In view of the foregoing, Applicants believe all claims now pending in this Application are in condition for allowance and an action to that end is respectfully requested.

If the Examiner believes a telephone conference would expedite prosecution of this application, please telephone the undersigned at 415-576-0200.

Respectfully submitted,
